Prices

Routes, schedules, and prices are determined by geographic zones at the beginning of each academic year, and are revised each term according to demand, efficiency and cost.

Only students who are 5 years old and above are allowed to subscribe for this service, with particular conditions:

- Subscriptions for 5-year-old students can be contracted for mornings only;
- Subscriptions for 6-year-old students and above can be contracted for one way or return.

There are two registration and billing options:

A. Termly Pass (per term)

This option offers the possibility to register either for all mornings, all afternoons or all journeys. The actual usage is then to the convenience of the student.

B. Annual Pass (per year)

This option offers the possibility to register either for all mornings, all afternoons or all journeys. The actual usage is then to the convenience of the student.

Students joining ISL for the start of the Winter or Spring term need to contract the termly subscription.

C. Note for Year 13 students

Students are advised to choose the termly pass, as there is no or only partial service in the Spring term due to the exams. In case of contraction of the annual pass, there would be no refund for the last weeks of the academic year.
